WRONG BODY BURIED

Fireman Sells's Remains Found Wednesday.

BODY WAS EASILY RECOGNIZABLE

Supposed That Body Buried Tuesday as That of Dead Fireman Is a Cleveland Man's—A Middletowner's Story.

The story afloat at the time of the wreck of Erie train 7 at Red Rock on Saturday evening, that all the passengers were not accounted for, seems to have been verified Wednesday night in the finding of the charred remains of a human being in the mass of debris where the vestibule cars were burned, down the bank. Dr. Johnson, of Shohola, was called and said that they were the remains of a man. Later it turned out that the body was that of Fireman Sells. His features were in a fair state of preservation and easily recognizable.

The body was found beneath the cylinder of the freight engine. The funeral of the supposed Fireman Sells occurred on Tuesday afternoon, at Honesdale, Pa. Instead of Sells's, the body which was buried, it now turns out, was the body of Mr. Campbell, of Cleveland, O., a passenger killed in the wreck. Campbell's remains will be disinterred and those of Sells placed in the grave. Campbell's remains will be shipped to his home in Cleveland.

A MIDDLETOWNER'S STORY.

Many believe that more will be found to have been killed in the wreck. Among those of that opinion is Frank Van Tassell, of this city. While Mr. Van Tassell does not desire any notoriety in the matter, when seen by an Argus reporter at Washington street and East avenue, this morning he said that he had found a woman's bracelet in the wreck on Sunday last, and that he took it from what he believed was the charred remains of a woman's wrist. He was prying around the wreck with a piece of iron at the time he found the bracelet. It was what is known as a snake bracelet, and the silver had partly melted away. He knocked it off the bone on which it was charred and has it at his house.

RUNAWAY NEWBURGH GIRLS.

Four of Them Went to New York—Two Arrested by a Gerry Society Agent.

Four Newburgh girls, Mary and Alice Keown, aged seventeen and fifteen, and two of their acquaintances of about the same age, named Cuddy and Gidney, ran away from their homes, Tuesday, and went to New York.

The Keown girls were seen at the Grand Central station by an agent of the Gerry Society, who followed them to a house on West Thirty-third street, which is said to have an evil reputation. The girls were arrested and were taken to the Jefferson Market police court. They had in their possession the address of the house in which they were found, and said it was given them by a woman at the station, who said they could get work there.

The girls were remanded to the custody of the Gerry Society until the agent could investigate their story. They will probably be returned to their home. They have been employed in the Newburgh cigar factory and had been talking for some time of going to New York for work, but their parents knew nothing of their departure.

Nothing has been heard as to how the Gidney and Cuddy girls fared after their arrival in the big city. Search will be made for them.

DRAGGED BY A TRAIN.

A Young Man Badly Hurt at the Port Jervis Station.

Lewis Parsons, of Port Jervis, was in this city, Wednesday, and returned home on the night express, which leaves here at 11:30. At Port Jervis he attempted to alight before the train stopped and, falling, was dragged several feet and tightly wedged between the depot platform and the truck of a car. He was extricated and taken to the hospital, where it was found that he had sustained severe injuries to one of his hips and to his head.

Port Jervis Pleased With Its Midway Park Outing.

The Port Jervis papers, in writing up the union Sunday school picnic at Midway Park, are enthusiastic in their praise of the park and its attractions and amusements. They speak, too, in terms of high praise, of the excellent arrangements made for transportation by Receiver Royce and Superintendent Gausman of the Traction Company.

Sparrowbush Hotel Burned.

Joseph Lonergan's Grand View Hotel at Sparrowbush was burned, Wednesday afternoon. The fire broke out in the kitchen at 2:30 o'clock and spread so rapidly that in an hour the building was entirely consumed. Part of the furniture was saved and by the efforts of citizens the flames were kept from the barns.

The property was owned by Mrs Smith, of Port Jervis.

Quits Preaching to Go to Pie Baking

The Presbytery of Hudson has dissolved the pastoral relations between Rev. A. F. Pape and the German Presbyterian Church at Nyack. Mr. Pape thought that the church could not pay him enough salary and he will quit preaching and go into the pie and cake business in New York.

—L. B. Lindsay has purchased of S. S. Purvis a lot on West Main street, at Hanford, and she will shortly erect a handsome cottage there.

WANTS $10,000 DAMAGES.

A Middletown Woman's Suit Against Three Sullivan County Men.

A young woman of this city, through Thomas Watts, her attorney, has brought suit against three well known residents of Sullivan county to recover $10,000 damages for false arrest and other indignities.

The young woman was employed in a town of Mamakating family and gave up her place to return home. After she had gone a member of the family missed or thought that she missed $15. A justice issued a search warrant and deputized a citizen to serve it, and the young woman was searched but the money was not found.

There were, it is claimed, various irregularities in the proceedings, and the indignant young woman has sued her former employer, the justice who issued the warrant and the citizen who acted as constable for the damages above named.

SAMUEL TIDD'S TROUBLES.

Fined for Intoxication and to Be Tried for Reckless Driving.

Samuel Tidd, of Howells, became intoxicated Wednesday afternoon, and drove recklessly across North street into Dr. Connor's wagon. The latter was driving from John street, and was nearing the Erie tracks when Tidd pulled across the street into him. Dr. Connor's wagon was badly wrecked, and his horse kicked so viciously as to injure its legs. Tidd's axle was broken. He was locked up, and this morning he was charged with reckless driving. He pleaded not guilty and asked for a jury trial, which was set down for to-morrow at 5 o'clock. Jacob Young gave bail for $50 for his appearance.

Then Tidd was charged with intoxication. He pleaded guilty and was fined $5. Mrs. Tidd, who was present, had $3.50, and she went out and borrowed the balance.

AN ARTILLERYMAN'S LETTER.

Fred Malone Sends Some Interesting News from Honolulu.

A letter was received, Wednesday morning, from Fred Malone, of Battery A, Sixth Heavy Artillery, which has been at Honolulu since April and which, he says, will remain there until after the rainy season in the Philippines is over, since it will be impossible to move the heavy guns on the impassable roads in Luzon.

Fred writes that five deaths from typhoid fever have occurred among members of Battery M. There have been no typhoid cases in Battery A but nearly all its members have suffered from boils or carbuncles.

Charles Eagan, of this city, who enlisted in the regular army, and was assigned to the 13th Infantry, and who has been at Honolulu for some time, sailed from there, July 18, for Manila, on the transport Wakefield.

ALMOST LOST AN EYE.

Glasses W. J. Pollard Was Wearing Shattered by a Bouncing Marble.

W. J. Pollard had a remarkably narrow escape from losing the sight of his right eye, Wednesday. He was seated on the porch of his residence, 107 East avenue, wearing a pair of glasses, when a marble, thrown by a boy, struck the sidewalk about thirty feet away and bounced in such a way as to strike the right lens of his glasses. Fortunately for him the lens was of unusual thickness, and though it was shattered none of the pieces entered the eye.

HORSE STEALING LUNATIC.

Escaped from State Hospital Here and Stole a Jersey Farmer's Rig.

From the Newton Herald.

Last Thursday an official of the Middletown Insane Asylum came to Newton and removed John McCune, confined in the county jail on the charge of stealing a horse in Sandyston township, back to the asylum. McCune has been confined in the Middletown institution for a number of years, and was considered incurable. He made his escape three days before he stole Mr. Major's horse.

Newburgh's Aldermen Coming Here as Guests of Highland Engine Co.

Newburgh's aldermen have accepted the invitation of Highland Engine Co. to be its guests on the occasion of its visit to this city, Oct. 12 and 13.

The company was granted permission to bring its steamer with it, and an appropriation was made to touch up and varnish the engine so that it will present a dandy appearance in the parade.

Two concerns employing female help are to locate at Poughkeepsie. The Muslin Underwear Company of Peekskill has leased a building for five years, and in three weeks will start with 75 hands. The other company has 300 applicants already, but it will not start with less than 500.

Another Discovery of the Rubber Neckers.

The rubber-neckers have discovered that there are two more mysterious men in town. They are dodging about so much, however, that but few are "on-to" them. One fights shy of Gunther's cafe; the other has been there considerable during the past twenty-four hours.

Charged With Stealing Journal Brasses.

John Meola was walking along North street, carrying 56 pounds of O. and W. journal brass in a bag, when Detective Grant Wilson arrested him. He claimed to have purchased the brass of some one else, but Recorder Barnes held him under $100 bail until Monday morning.

Had His Foot Amputated.

William Smith, who had a foot crushed in the Erie yard at Newburgh, last week, had the injured member amputated in the hospital in that city, Tuesday. He was on his way to Chester, where he hoped to get work in the onion fields, when the accident happened.

Two Recruits Sent to Camp Meade.

Wm. Vance, of Warwick, and Harry B. Hoyt, of Unionville, left for Camp Meade, to-day, having enlisted in the 27th Volunteers. Vance is one of the boys who blew out the gas at the Russell House, a few nights ago.

BAD BOYS BAGGED.

Three Young Offenders Sent to the House of Refuge.

HAD STONED STOREHOUSE WINDOWS

Recorder Barnes Dealt Out Stern Justice to Young Offenders—Many Complaints Concerning Them Made—Other Youngsters Discharged.

The police were informed, Wednesday, that a gang of boys who make Mill and Fulton streets their headquarters, had broken out forty-two panes of glass in Harding's storehouse, and after a day's hunt rounded up half a dozen boys, who were lodged in the lockup. There was a crowd of boys outside of the lockup all the while and, after dark, mothers and sisters began to bring food, which was passed in the window to them.

Finally the boys were arraigned, and all were discharged except Floyd Foster, aged fifteen, George Kingfather, aged thirteen, and Samuel Christiani, aged thirteen. These were sentenced to the House of Refuge, and they were taken there this morning.

The Recorder's disposition of these boys' cases seems harsh. They are bad boys and have been in court several times, the Recorder states, charged with minor offences. Kingfather is believed to be the boy who stoned Erie No. 2 for a day or two, a few months ago, but there is no proof of this.

None of the boys' parents, however, have asked for the sending of their boys away and a lesser punishment would perhaps have availed, and it seems that it should have at least been given a trial.

An Argus reporter looked at the forty-two panes broken out in the storehouse. They are all in the door of the house and one sheet of the Argus would cover them all. People living in the vicinity claim that the gang in that vicinity is annoying at times, especially at night, and think a little efficient stick work on the part of a policeman would soon break it up. One man said he had never seen any policeman in that vicinity except one night, when he met Officer Faulkner going up Monhagen avenue. When Capt. Velie was told that this morning, he said the boys' mischievous acts were committed in the daytime when the day men are busy serving notices.

MAIL BURNED IN ERIE WRECK.

Most of the Contents of Seventeen Mail Pouches Destroyed.

Seventeen pouches of first-class mail matter, made up in New York city, and destined for Elmira, Jamestown, Utica, Sidney, Salamanca, Randolph and Wellsville, in this State and Meadville, Corey, Warren, Greenville and Bradford, Pa., were burned in the wreck on the Erie road at Red Rock on Saturday night.

The mail matter in these pouches none of which was registered, was in a great part completely destroyed, but a considerable portion which was only partly burned, has been returned to New York and has been carefully sorted by clerks in the railway mail service. When the address on a letter was decipherable, such letters have been forwarded, but in many cases portions of burned letters or checks contained only the names of the senders and in such cases the letters have been returned.

TOWN NEED NOT PAY.

Law Not Complied With in Road Machine Case.

In the case of Daniel D. Lockwood, Elias Green and Henry Taylor, taxpayers of the town of Shawangunk, against the American Road Machine Company and others, Judge Betts has decided that the town of Shawangunk need not pay for a road machine which it was claimed was sold to the town in 1893. Judge Betts holds that the law in regard to the purchase of road machines was not complied with, and that some of its provisions were entirely disregarded.

John C. R. Taylor, of this city, was the attorney for the taxpayers who won their suit.

There have been no fatal cases. Dr. John J. Wilson, of Poughkeepsie, says that it is only a new manifestation of malaria.

COAL MINERS' STRIKE

Employes of Five Anthracite Collieries Go Out.

OBJECT TO EXCESSIVE DOCKAGE

Some, However, Demand Increased Wages—About 2,500 Men Idle—The Collieries Affected—Trouble Threatened to Others.

BY ASSOCIATED PRESS.

WILKESBARRE, Aug. 3.—The employes of five big collieries in the anthracite region have gone on a strike. The main grievance is the alleged excessive dockage. It is estimated that nearly 2,500 men are idle.

At the Ayhanticoke colliery of the Susquehanna Coal Company, 1,000 men have stopped work, and at Keystone and Mill Creek 500 are out. At the Babylon mine, at Duryea, 500 are on strike for an increase in wages and the same number stopped work, yesterday, at the Essex Shaft, at West Pittston.

Several other collieries are threatened with shutting down as a result of dissatisfaction among their employes.

YELLOW FEVER OUTBREAK.

William Thomas, Who Brought Fever to Soldier's Home, Located.

BY ASSOCIATED PRESS.

WASHINGTON, D. C., August 3.—The old soldier William Thomas, who came from Santiago, and who is supposed to have brought yellow fever to the Hampton Soldiers' Home, has been located by the Marine Hospital officials.

After recovering from the illness which was undoubtedly a mild case of yellow fever, from which he suffered at the Home, he sent his baggage to Phoebus and went himself to Columbus City, Wash., where he now is.

Surgeon General Wyman regards it as fortunate that Thomas went to such high latitude as it greatly lessens any danger of infection.

STORMS PLAY HAVOC

Tornado, Hail and Lightning Damage Many Towns.

A NEW JERSEY CITY HIT HARD.

Three Churches and Two Theaters Were In the Path of the Cyclone at Elizabeth, N. J.—Lightning Kills One Man at Kingston, N. Y.

ELIZABETH, N J, Aug 3—This city was visited by a form of tornado yesterday afternoon which cut a swath about 100 feet wide through the center of the city, causing great damage to buildings and property, but, strange to say not a person was killed, and no one was seriously injured Those who were hurt were only slightly injured, apparently no one badly enough to need the attention of a physician

The path of the tornado included in its course many of the prominent church buildings and other structures, and no other similar course could have been taken through the city where the possibilities of damage were as great

The windcloud which did the damage appeared in the southwest at about 3 o'clock Eyewitnesses say it had all the characteristics of a true tornado cloud It was funnel shaped and advanced with great rapidity There was no noise preceding it except the distant roll of thunder, and the cloud as it approached showed it was highly charged

One of the first things to be hit by the blast was the tower of the historic old First Presbyterian church This towering column was snapped off just above the clock The center of the portion which fell struck the sidewalk, and the top burned the car tracks on Broad street

The roof of Christ church gave way before the storm and was badly damaged The skylight of the Lyceum theater over the stage was lifted off and the roof damaged At the Star theater the wind ripped off a large part of the main roof The tower of the Central Baptist church fell at about the time the roof of the Star theater struck the entrance to the church Many other minor disasters to property were reported

ALGER AT HOME.

An Ovation For the Ex-Secretary at Detroit.

DETROIT, Aug 3.—Whatever may have been the personal feelings of the late secretary of war, General Russell A Alger, concerning recent incidents of his official career all sentiments save those of genuine happiness were very evidently banished yesterday afternoon and evening by the magnificent welcome tendered him by the people of his own city and state From 4 o'clock, when the welcoming committee crowded into his private car upon its arrival at Toledo, until 9 o'clock, when the general ceased grasping outstretched hands, the scene was a constant spontaneous ovation Smiles and tears repeatedly struggled for the mastery over the secretary's bronzed countenance as he gazed into the eager faces of the multitudes, who loudly and convincingly insisted that "Alger's all right," and no dissonant voice was heard Darkness fell during the speeches from the reviewing stand in front of the city hall giving opportunity for throwing a searchlight upon the features of General Alger drawn in crayon on a canvas 16 feet square hung from the city hall front and surrounded by patriotic decorations A great crush at the indoor reception was the final feature

The special train which met General Alger and party at Toledo consisted of eight coaches It carried 400 members of the reception committee Banners stretched along the sides of the cars stated that "Michigan welcomes her honored son, General Alger" When the Pennsylvania train arrived the general's private car was besieged by his old friends On the return trip General Alger was escorted through the train and greeted by all.

Headed by about 900 bicyclists over 1 000 marchers escorted General Alger from the Michigan Central station by a circuitous route leading past the generals home to the reviewing stand Militia and veterans of the civil war, including Fairbanks post, G A R of which the general is a member a company of Spanish war veterans and scores of marchers in secret society uniforms filed past Fairbanks post carried two great banners stretching half across the street which declared There is only one Alger

When General Alger appeared upon the reviewing stand there was a roar of applause from the dense crowd which blocked all traffic across the Campus Martius The ex secretary reviewed the parade and returned the salutations of many marchers especially those of veteran G A R comrades

THE FEVER IN CHECK

Rigid Quarantine Will Prove Effective, It Is Thought.

NO MORE DEATHS AT SOLDIERS' HOME

Suspects Are Guarded at Phoebus. Norfolk Authorities Vigilantly Watching Incoming Trains For Suspicious Cases.

NORFOLK, Aug 2—In so far as Norfolk is concerned there are no new developments with reference to the yellow fever situation The rigid quarantine measures which have been put into effect and the unanimity of action on the part of the different health authorities of the state and city have done much toward restoring confidence It is not believed here by those in the best position to know that the fever will reach Norfolk, and the temporary fear which almost paralyzed citizens and killed business when the startling news from the Soldiers' home first reached here is gradually wearing away, and commerce is once more thought of

Every possible precaution is being taken The beach for a distance of five miles is patrolled night and day, while several tugboats and other steamers are constantly on the lookout for any and all craft from the infected district Craney island has been turned over by the government for the use of the city as a place of detention, and if hard work and close attention to business count for anything Norfolk will avoid any actual conflict with the scourge

When the quarantine inspectors met the Cannon Ball train on the Norfolk and Western railroad yesterday, they found aboard bound to Norfolk 18 passengers who could not give the satisfactory account of themselves required by the health authorities of the city The train was held at Tuckers, about five miles out from Norfolk for two hours and finally the car containing the persons referred to was detached from the train to be sent back to Richmond

Late last night it was ascertained that at least one of the suspects at Phoebus was a genuine case of yellow fever The man's name is Spraggins, a barber, whose shop and home are in adjoining houses a few doors from the Phoebus bank Next to his shop is a tenement house inhabited by two or three families, all of whom have been quarantined

No Deaths, No New Cases.

HAMPTON, Va Aug 3—"No deaths and no new cases" was the official report from the Soldiers' home last night The homes of two suspects in the town of Phoebus were quarantined yesterday, but the authorities of that town are not satisfied that they are yellow fever cases A telephone message from the Soldiers' Home hospital last evening however, stated that two more cases of the scourge had been discovered in Phoebus Hampton is still free from the disease and Dr White of the marine hospital service who is in charge of the town's quarantine arrangements is confident that it will be kept out

All Cars Fumigated

NEW YORK Aug 3—Every passenger coach that arrived from the south yesterday over the Pennsylvania and Chesapeake and Ohio railroads was fumigated and every passenger from the south was inspected before being permitted to leave trains This extraordinary precaution was adopted by the health department of Jersey City assisted by the railroad companies to prevent the possibility of a spread of yellow fever A special squad of sanitary officers has been placed on lots at the Pennsylvania and Baltimore and Ohio stations in Jersey City by the health inspector Daniel W Benjamin

More Yellow Fever at Santiago.

SANTIAGO Cuba Aug 3—Four cases of yellow fever have been reported in the last four days all the victims being American civilians One case occurred in the Cosmopolitan club General Wood believes that there is little danger of the increase of the disease as nearly all the people are either immune through having had the fever or are isolated outside the town The quarantine restrictions of the port and municipality are strictly observed Only General Wood and his staff are in the city The health of the troops at Songo remains good General Wood will leave in a few days for Puerto Principe to inspect that division of his department

The Spanish Court Martial

MADRID Aug 3—At yesterday's sitting of the court martial before which Generals Toral and Pareja are being tried on charges of having surrendered to the Americans before exhausting all means of defense at their command General Pareja's counsel read telegrams exchanged with the commander in chief showing that Guantanamo only capitulated on orders from a superior officer and that the town was without either provisions or means of defense The other officers advanced a similar defense The judgment of the court martial was deferred

The leading railroads centering in New York almost entirely use Chilton Paint Chemists acknowledge its superiority and the practical painter appreciates that theory and practice in this case do not disagree

These great corporations want the most durable article because they can not afford to often stop their cars for the purposes of repainting.

Some railroads go even so far as to specify when having cars built that Chilton Paint, and only Chilton Paint, shall be used upon them, and bridge engineers often specify that bridges shall be painted only with Chilton Paint If these great corporations, who make a study of economical methods and materials use Chilton Paint, can you afford not to profit by their experience?

If your dealer will not furnish it write direct to the CHILTON MANUFACTURING CO 69 Cortland street, New York city, for color cards and prices

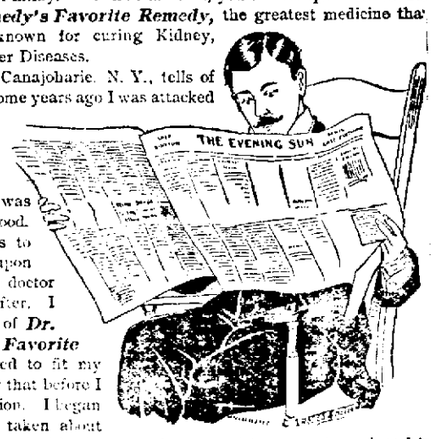
Saved from the Surgeon's Knife

No organs are of greater importance to the human body than the Kidneys. Their duty is to sift and strain the poisonous and waste matter from the blood and if they fail to do this the trouble shows in the nervous system, and even in the brain. Your life is at stake when there are pains in the small of your back—when you are compelled to get up at night to urinate—when the passing of water causes scalding pain—when there is a sediment in the urine in the vessel, or when it appears white or milky. When so afflicted, you can conquer the trouble with *Dr. David Kennedy's Favorite Remedy*, the greatest medicine that civilization has ever known for curing Kidney, Bladder, Blood and Liver Diseases.



James Lettiec, of Canajoharie, N. Y., tells of his wonderful cure: "Some years ago I was attacked with pains in my back and sides that were fearful. I could not control my kidneys, and what came from me was filled with mucus and blood. An Albany doctor was to perform an operation upon me, and said my home doctor could take care of me after. I saw an advertisement of *Dr. David Kennedy's Favorite Remedy*, which seemed to fit my case, so I decided to try that before I submitted to the operation. I began its use. When I had taken about two bottles the flow from the bladder grew cleaner, and the pain stopped, and in a short time I was saved from the surgeon's knife, and am now well."

Favorite Remedy also cures Eczema, Scrofula, Rheumatism, Dyspepsia and Constipation. For Female Troubles it is unequaled. It is sold for $1.00 a bottle at all drug stores.

Sample Bottle Free! In order that sufferers may be convinced of the curative virtues of *Favorite Remedy*, a free sample bottle will be sent, prepaid, to those who send their full postoffice address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y. It is necessary to say that you saw the advertisement in this paper if you wish to take advantage of this genuine and liberal offer. Send today

ON THE TIP OF THE TONGUE

An observant member of the Maennerchor says that, a few years ago, all that was necessary to bring rain was to announce a picnic at Maennerchor Park—and rain would come on the day set for the picnic. This happened so often that the Maennerchor became known as a rain-maker. Picnics at the park haven't lost their rain-compelling power, for although it doesn't rain on the day of the picnic now, rain puts in an appearance the next day. It is said that this has been the case with every picnic held there this year, and certainly this is a much more satisfactory arrangement than to have the picnics spoiled by rain.

The Germans of this city are planning for an especially big day, Labor Day, when the annual Volks Fest will be held. A German club is coming from Paterson fully 500 strong, and they will visit the Maennerchor at its park and participate in the merrymaking of the day and night.

Chief Higham crawled into a Pullman berth after the O. & W. night line left this city Wednesday night. He was on his way to Norwich and thence to Oxford. There was a big firemanic demonstration at Oxford to-day, and among the features was the famous caricature of a fire company, the "Umpvilles" from Binghamton. Chief Higham is very anxious to get them to visit Middletown on the occasion of the big parade, and is working up some proposition by which it can be accomplished.

Chief Higham entertained the visiting delegation from Cortland truck, of Peekskill, Wednesday, and took them all over town, causing the writer to wonder if people really get any idea of how much money he puts out in entertaining such visitors in the course of a year. Everybody knows that "Chick" will do it, and all the visitors land at the Commercial House. He escorts them around town, foots their bills and they go away delighted with Middletown and its fire department.

Apropos of the fire parade it is a fact that more eating places will be needed on that day than there are in town at present. Hence some of the hustlers should arrange to secure one or more of the big vacant stores and fit it up for the sale of lunches.

IN THE RAILROAD WORLD.

—About five miles of the extension of the Ulster and Delaware railroad have been graded and a large force of men and teams is employed on the work. All the ties and rails needed for the extension are on hand.

—Citizens of Newton, indignant at the treatment that town is receiving at the hands of Lackawanna officials in the matter of freight rates and coal prices, have been interviewing President Thomas of the Erie and the Susquehanna officials in regard to building the long talked of spur to the town. Just what has been accomplished is not known, but the Lackawanna officials have visited Newton and have promised to attend to some of the complaints made by the Newton people.

Toledo Greets Alger.

TOLEDO, Aug. 3.—Ex-Secretary of War Alger arrived in Toledo yesterday afternoon over the Pennsylvania road. An immense crowd of Toledo people, in addition to the Michigan delegation, was present, and as his train pulled into the depot he was greeted with cheers. The car was entered by a local reception committee, and General Alger was formally welcomed. The reception visibly affected Mr. Alger, and tears stood in his eyes as he bowed to the people. While his car was being attached to the Detroit train General Alger was compelled twice to return to the platform and acknowledge the enthusiastic demonstration. He shook hands with all the people within his reach and was cheered as the train pulled out.

Nicaragua Congress Meets.

MANAGUA, Nicaragua, via Galveston, Aug. 3.—The congress of Nicaragua assembled yesterday. Senor Gomez, president of the body, presided. President Zelaya read his message opening the session. In it he commends the treaty made at Bluefields on April 29 with United States Minister Merry and asks congress to take measures to prevent the threatened deficit in the finances of the country. President Zelaya also says that the decision of General Alexander, the arbitrator of the dispute as to the boundary line between Nicaragua and Costa Rica, is favorable to Nicaragua.

COLUMBIA DISABLED.

The Cup Defender's Steel Mast Broke.

WILL BE READY FOR THE SHAMROCK

Her Owner, Mr. Iselin, Takes the Unfortunate Yacht Back to the Shipyard For Immediate Repairs.

NEWPORT, R. I., Aug. 3.—The worst accident that ever occurred to an America's cup defender prior to the cup races befell the Columbia yesterday. While racing with the Defender off Newport the new cup defender's mast went by the board, crashing her sails into the water, bending and twisting her rigging into a hopeless tangle and smashing her spars to pieces. Of her scores of stays only the bobstay was left in position, while of the spars only the boom and gaff were left whole, and these were badly bent. That no one of those aboard was hurt was little short of a miracle.

Had there been a heavy sea on the frail bottom of the Columbia would probably have been pounded out of shape by the broken spars, which were drifting alongside. As it was, with the quiet water, the crew was able to keep them clear of the yacht's sides, and no damage to her hull was done.

The accident was all the more provoking for the reason that yesterday was really the first time that the Columbia was showing what she could do. C. Oliver Iselin, her managing owner, determined to let her out yesterday, and up to the time she carried her mast away she was showing her heels to the Defender as she had never shown them before, but the havoc wrought aboard the ship yesterday can easily be repaired. Her hull is still intact, and, rigged with a new mast and new spars, the Columbia will be as good as ever.

The Columbia sailed in here last night a queer looking sight. Her masthead was bent over on to the starboard side and had the appearance of being a great shear such as is used in shipbuilding. It looked like a big inverted V. The hanging top of the mast was supported by hatches. The bowsprit was in place all right, and the boom and gaff were not injured.

The Columbia anchored off the Herreshoffs', and a floating derrick was sent out at 7 o'clock. The boom was set up on crutches. The mainsail is lying on the deck, and the headsails are stored below. The boat is stripped of her rigging.

The broken mast will be at once replaced by the Oregon pine mast originally in use. Fifteen riggers have been secured to go at the work of getting the Columbia in racing trim again at as early a date as possible. The accident shows the Columbia's steel mast to be broken in two sections of about 12 feet each, and the present plan is to replace these with new sections, so that the Columbia will eventually have her steel mast for the great race with the Shamrock.

The Vigilant and Navahoe will race Saturday.

Florida Towns Wrecked.

TALLAHASSEE, Fla., Aug. 3.—The town of Carrabelle, a prosperous port on the gulf of Mexico, southwest of this city, is reported almost completely destroyed by a terrific wind and rain storm which passed through this section during Tuesday. Many boats which were in the harbor have been wrecked, and most of the long wharf is gone, together with large quantities of naval stores. At Lanosk the houses, pavilion and boats have been destroyed. Unconfirmed reports say that the steamer Crescent probably has been lost between Apalachicola and Carrabelle. Several persons are reported drowned at St. Marks. A few houses were destroyed at St. Theresa.

Glencairn Wins Again.

POINTE CLAIRE, Que., Aug. 3.—The fourth of the series of five international yacht races for the Seawanhaka cup, of which the Constance had won two and the Glencairn III one, was started on Lake St. Louis at 1:55 o'clock yesterday afternoon over a triangular course. The Constance led at the start, but the Glencairn turned the first buoy ahead at 2:10. The Constance went around at 2:11:55. A heavy rain was falling. The Glencairn won at 4:14:40. The Constance crossed the finish at 4:20:25. The Glencairn thus won by 5 minutes and 45 seconds. Both sailed fast against the wind to the finish.

Many Diseased Cattle Killed.

ALBANY, Aug. 3.—The committee on tuberculosis of the state board of health has submitted its report for the month ended July 23. It shows that out of 107 head of cattle examined and tuberculine tested 10 were condemned. Thirty-six head of tuberculosis cattle were destroyed, of which number 21 were grade or full blooded Jerseys and 15 of the common stock. Since Jan. 1 4,507 head of cattle have been examined and tuberculine tested, 447 being condemned and 141 destroyed.

Italian Fleet May Come.

WASHINGTON, Aug. 3.—There is some prospect that an Italian fleet will visit American waters next month. A movement to that end has been on foot of late among prominent Italians of New York, the purpose being to have the fleet here on Sept. 18, when Italy celebrates a national holiday, and it is thought the sailing north of the Italian fleet at Buenos Ayres is the result of the movement.

DISGUISED DANGER.

Hunters sometimes hide themselves in the disguise of a cow, and thus make their way into the very midst of the most cautious game. The mode of operation is shown in the

picture. In a similar manner consumption hides itself in the disguise of a throat or bronchial affection, making its way finally to the lungs, where the insidious germs eat away the victim's life. A stubborn cough, bronchitis and other throat troubles are the first steps toward this deadly malady. Dr. Pierce's Golden Medical Discovery will prevent consumption, during every contributing cause. Time and time again, it has cured what local physicians have pronounced well developed consumption. It makes the stomach healthy, the liver healthy, the blood healthy. It is a rejuvenating tonic, which makes the weak strong; puts ambition into tired people, puts flesh on thin bodies, and vigor into sluggish veins. It is a peculiar medicine in that its properties are preserved in any climate without syrup, sugar or alcohol entering into its composition. It does not create craving for injurious stimulants. It is the personal prescription of Dr. R. V. Pierce, of Buffalo, N. Y., whose widespread experience and success are at the service of the public without cost. Anybody, anywhere can consult him *free* by mail.

"I will write you what Dr. Pierce's Golden Medical Discovery has done for me," says George H. Belcher, Esq., of Dorton, Pike Co., Ky. "Thirteen years ago I was wounded by a ball passing through my lung. I have had a bad cough almost ever since with shortness of breath, and it was very easy to take cold, the slightest change of weather would cause the cough to be so bad I would have to sit up in bed all night. Could not eat or sleep at times; was all run-down, could not work at all. A few months ago I began using Dr. Pierce's Golden Medical Discovery. Have not used more than two bottles and now can eat, sleep, and work and I feel like a new man. I cannot find words to sufficiently recommend Dr. Pierce's Golden Medical Discovery, or tell the good it has done me."

The no-gripe remedy for costiveness is Dr. Pierce's Pleasant Pellets.

Cumulative Evidence

A proof of merit in any article is the amount of free advertising it receives. The universal success of Pabst Malt Extract, The "Best" Tonic, is largely due to one person's telling another of the benifits derived from its use. It is sold in almost every city and town in the United States. Its purity and efficacy have given it the immense popularity it has attained. It is indorsed by thousands of physicians and patients. It makes strength. It gives vigor and health when every avenue of hope seems to be closed.

When you ask for Pabst Malt Extract, The "Best" Tonic, do not be led into buying something else. Many imitations have recently appeared. Remember that Pabst Malt Extract, The 'Best' Tonic, was the only malt preparation declared perfect by the judges at the World's Fair, and alone marked with 100 points of perfection. The way to obtain the greatest amount of benefit for the least amount of money is to have your druggist deliver you a dozen bottles at a time.

THE

NEW YORK WORLD

THRICE-A-WEEK EDITION.

Practically a Daily at the Price of a Weekly.

The striking and important events of the last year have established the overwhelming value of *The Thrice-a-Week World* to every reader. For an almost nominal sum it has kept its subscribers informed of the progress of all our wars, and, moreover, has reported them as promptly and fully as if it were a daily. With our interests still extending throughout the world, with our troops operating in the Philippines, and the great Presidential campaign, too, at hand, its value is further increased.

The motto of *The Thrice-a-Week World* is improvement. It strives each year to be better than it was the year before and public confidence in it is shown by the fact that it now circulates more than twice as many papers every week as any other newspaper, not a daily, published in America.

We offer this unequaled newspaper and THE MERCURY together one year for $2.

The regular subscription price of the two papers is $2.50.

SEVEN VOTES AT SCHOOL ELECTION.

Very Little Interest in School Matters—Goshen Mail Destroyed in Erie Wreck—Fred Kohl's Record Broken—Other Notes.

From Our Regular Correspondent

—At the election of school trustees, held at the old school building from 12 m. to 4 p. m., Wednesday, only seven votes were cast. Dr. F. W. Seward, whose term expired, and Thomas Mould, who was appointed to the vacancy caused by the death of Dudley Murray, received all the votes. The small number of votes cast shows a lack of interest on the part of our citizens in school matters. It costs as much to run the schools as it does to run the town.

—Postmaster Smith has received word that the pouch of mail made up for train 7, Saturday, by this office, was destroyed in the Red Rock wreck.

—Bernat Levison is spending a day or two in town.

—Ed. Hobart, of Liberty, a former resident, has returned home after spending a few days in Goshen.

The genial superintendent looks as if Elmira agrees with him. He has a large number of friends in this city.

—The Port Jervis *Gazette*, in its account of the picnic of the Port Jervis Sunday schools at Midway Park, says that "many Goshen and Middletown people came to the park to see old acquaintances and none received more hearty greeting than Col. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

PROFESSIONAL MEN WORK.

Farmers or Laborers Who Do Manual Labor Have an Advantage in Hours of Work.

"People who work with their hands, especially farmers, are apt to think that professional men have an easy time of it," said a lawyer of this city, reports the New Orleans Times-Democrat. "It's an amusing mistake. The farmer stops at sundown and the laborer works ten hours at the outside. The average professional man works from 12 to 14 hours day in and day out, all the year around. Often, at a pinch, he will work from 16 to 20 hours for several days in succession, and he will work when he is sick or suffering severe physical pain, something the manual toiler wouldn't dream of. Of course he takes short intervals of rest, like everybody else. The human engine isn't capable of absolutely sustained endeavor for over an hour at a stretch. Watch a day laborer, who seems to be plodding along like a machine, and you'll find that he really rests more than half the time. He looks at some well-dressed doctor, lawyer, broker, or man of affairs and says to himself: "O, you doggoned lazy rascal! If you only had to work like me!' The truth is that the chap he envies is putting an amount of concentration and continued energy into his daily toil that would kill the man who works with his hands alone in less than a week. I don't mean this as any reflection on the laborer, who is also no doubt doing his level best. I simply mean that the demands on brain production are a third again as severe as the demands on muscle production. For sheer staying qualities there is nothing in the world that equals the nervous, high-strung, frail-looking modern professional man."

WON HONORS THOUGH BLIND.

Student in the South Carolina College Who Surmounted Many Difficulties.

The honors of the commencement exercises at the South Carolina college this year were carried off by John E. Swearingen, of Edgefield, S. C., who has been totally blind since he was seven years old, reports the Buffalo Express. Swearingen stood higher than any man since the college was established early in the century. In such branches as mathematics and astronomy, where the sense of sight would naturally be regarded as of the utmost importance, he has achieved remarkable success. One professor says, for instance, that Swearingen answered with two minutes' thought a complex mathematical proposition that has not been answered by another student in the college. He appears to have a perfect conception of relative positions and distances, and he experiences no difficulty in drawing geometrical figures. It would be interesting to know how much of his present conception of these things is due to knowledge gained consciously or unconsciously before he became blind. A child of seven years generally has a pretty good idea of form, though not so good of distance. If he were an unusually bright child, as Swearingen probably was, these ideas would be much advanced, while in either case they would be lasting. Swearingen is ambitious, but is undecided whether to become a minister or a lawyer. His teachers believe he would adorn either profession.

MEN'S FEET.

The Left Usually a Little the Bigger—Shoes, However, Made Alike in Size.

The man buying a pair of shoes found the right one perfectly comfortable and easy, the left one rather snug, says the New York Sun.

"It's usually so," said the salesman; "the left foot is commonly a little bigger than the right foot."

"Why don't you make the left shoe a little bigger, then?" asked the customer.

"Well," said the salesman, "the difference is usually not great, and it might not be enough so that it would be noticed in trying on shoes. And then it is not so great but what the difference in feeling of the two shoes disappears very soon. And then, too, in some cases the man's right foot is the larger, the man being right-footed in this respect as men are sometimes left-handed, the reverse of the common habit in the use of their hands. If shoes were commonly made with the left a little bigger than the right, to fit the majority of cases, they'd be worse than ever when you hit a right-footed man. So the shoes are made alike in size, a man gets a pair that fit him comfortably to start with, and they adapt themselves quickly to any slight differences in the feet."

British Vital Statistics.

The British Medical Journal, which should be an excellent authority, reports that between 1873 and 1886 the annual marriage rate in Great Britain fell from 17.6 to 14.2 per 1,000 of the population. Last year it rose to 16.2. The birth rate has been less fortunate. It reached its maximum in 1876, but since that year there has been a steady decline, last year the births being 19 per cent. below the number in 1876. The marriage rate in the agricultural districts is lower than in the manufacturing districts, and the decline in the rural population is still further increased by the enlarged number of removals into the towns. Is the mother country going the way of France?

Gorgeous Check Books.

One of the New York banks where most of the fashionable ladies keep their accounts issues most gorgeous check books to its depositors. On the cover is the owner's monogram, while the checks are printed in gold from exquisitely-engraved plates.

A Safe Refuge.

"Tom," said Jimmy, "do you know that some day the world will be burned up with fire?"

"So I have heard," replied Tom.

"But, Tom," went on Jimmy, who was deeply concerned about the approaching catastrophe, "what will you do when the world is burned up?"

"Oh, replied Tom, with an air of one who has provided for all the contingencies, "I shall go out to Uncle Billy's and stay."—Detroit Journal.

Proof of Ability.

The Creditor—If you don't settle this account at once I shall have to put it in the hands of a lawyer.

The Debtor—Well, if you can find a lawyer who is able to collect from me, I will give him a steady job looking after my interests.—N. Y. Journal.

Not Up to the Times.

Amy—Why have you dropped Miss Elder's acquaintance?

Mabel—O, I was compelled to. She's beyond redemption.

Amy—What is the trouble?

Mabel—She persists in saying "well-dressed" instead of "smartly gowned."—Harlem Life.
